

This report is a work in progress due to the evolving nature of the City of Pittsburgh's riverfront trail system. As conditions, opportunities and priorities change, so will the nature and sequencing of trail development presented below.

## Inventory

The following is an inventory of the City's riverfront trail segments. It contains maps, spreadsheets and summary statistics for several of the variables in the database. Each segment is numbered and named. Some are divided into subsegments based on ownership. Below is a list of the variables that are identified for each segment.

- Segment Number
- Segment Name
- Segment To/From – Gives the limits of the segment
- Miles – Length in miles
  
- Status – Status of development in terms of being complete, under development, pending, desired or not proposed
  - TC - Trail Completed
  - TUD - Trail Under Development
  - TPC - Trail Pending/City Control
  - TPPb - Trail Pending/Public Control
  - TDPr - Trail Desired/Private Control
  - NTP - No Trail Proposed
  
- Own – Ownership of segment in terms of being owned by the City, privately, publicly other than city or a mixture of both private and public ownership
  - C - City
  - PB - Public
  - MX - Mixed Public/Private
  - PR - Private
  
- Priority - Order in which trail segments are expected to be developed.
  - IMM - Immediate Priority
  - PENDING - Pending Priority
  - FUTURE - Future Priority

---

## Table 1 - Sorted by Segment Number

These tables are for referencing trail segments by name or number and for aggregating trail data.

- A total of 46.6 miles of trails has been inventoried. This includes Nine Mile Run, Panther Hollow, and Chartiers Creek trails, as well as 1.7 miles of trail in Millvale Borough and 1.66 miles of trail in Baldwin Borough.
- This inventory is divided into 37 segments and 54 subsegments distinguished by their physical characteristics, ownership, and/or development status.

# Table 1: Inventory of Riverfront Trails / Segments

## Table 2 - Sorted by Development Status

This table is sorted by the development status of the segment.

- About 7.0 miles have completed trails (15% of total inventoried segments).
- About 4.6 miles of trails are under development (9.9 %), total costs \$12.1 million.\*
- About 8.6 miles of pending trails under City control, total cost \$1.98 million.\*
- About 2.7 miles of pending trails under public control, total cost \$1.02 million.\*
- 17.4 miles of desired trails are under private control (38.4%), total costs \$5.1 million.\*
- About 6.2 miles have no trail proposed (13.4%).

\* Costs are based on a rough estimate of \$200,00 per mile, plus right-of-way costs.

### **Table 3 - Sorted by Ownership Status**

This table is sorted by ownership status of the segment.

- City of Pittsburgh owns about 19.3 miles of the riverfront segments (41.4%). This includes Panther Hollow (1.18 miles) and Nine Mile Run (1.1 miles).
- About 3.5 miles are otherwise publicly owned.
- About 14 miles are privately owned (30%).
- About 9.8 miles have a mixture of public and private ownership.

## Table 4 – Sorted by Priority Status

This table is sorted by priority status.

- 13.5 miles of trails (29% of total inventoried trails) are designated “Immediate Priorities”. Each of these segments is a key riverfront segment. Trail development is pending with no obstacles.
- 3.9 miles of trails (8.4%) are designated “Pending Priorities”. These segments are also key riverfront trail segments but development is pending (1) the resolution of obstacles to developments and/or (2) the realizing of opportunities for development.
- 17.7 miles of trails (38.9%) are considered future priorities due to unavailability of the land and lack of connectivity between the existing segments and those in this category. As the trail system develops, these segments will become priorities for development.
- The remaining 12.9 miles of trails\* (27.7%) are either completed or under development at this time.

\* This excludes segments #29 and #30. They are included in the Immediate Priorities. Their development is on hold until segment #28 is completed.
